I understand that it is illegal to sell or install an aftermarket part that is intended for use with, or as part of, a required motor vehicle pollution control device or system that alters or modifies the original design or performance of the motor vehicle pollution control device or system unless the part has an Executive Order from CARB (California Air Resources Board).

Installation of these types of parts which are not CARB-approved on a pollution-controlled motor vehicle in the state of California may result in the Department of Motor Vehicles (DMV) revoking the vehicle registration and certification of ownership (title), refusing to transfer of registration, and/or the vehicle failing smog inspection. It is illegal to operate a vehicle in California with an illegal aftermarket part. Law enforcement may cite you for the use of an illegal aftermarket part and seize your title and license plate. The modifications performed were done so with the understanding that the operation of the vehicle will be for off-road/competition use in a closed course only and will not be used on any public roadway.

None of the above repairs done are legal for the use on a pollution controlled vehicle in the state of California and the vehicle will no longer pass CARB and EPA pollution testing. **UPON COMPLETION OF CONTROLLER PROGRAMMING CBM WILL ENTER CODE THAT ENSURES THE VEHICLE WILL NOT PASS SMOG TESTING.** CBM is hereby released of any and all emissions liability and/or warranty.
